

Williams R. Villavizar Hdez.

Junior Web Developer · Full Stack

Santo Domingo, Dominican Republic · williamsvillavizar204@gmail.com · linkedin.com/in/williams-rafael · github.com/wilrd14 · wilrd14.dev

_ PROFILE

Junior web developer focused on TypeScript, React and Next.js, studying Informatics at UASD. I build full-stack applications end to end, with Supabase/PostgreSQL backends, multi-tenant security, payment integrations and automated tests, using **Claude Code** as my AI pair programmer. I come from technical support and data verification, where I learned precision, consistency and teamwork.

_ EXPERIENCE

Electronic Validation Assistant (Auxiliar de Validación Electrónica) — Jan 2026 - Present

Junta Central Electoral (JCE) · Santo Domingo · Remote

- Verify about 100 national ID (cédula) applications per day, renewals and first-time issuances, by cross-checking them against the records system.
- Work on virtual machines connected to the internal network using the institution's in-house software; moved from on-site to remote work.

Cinema Projection Technician — Jan 2023 - Oct 2023 · Nov 2024 - Jul 2025

Caribbean Cinemas · Santo Domingo

- Supervised projection across six screens, ensuring smooth operation and quality.
- Automated film playback processes and maintained the technical equipment.

Floor Staff (Personal de Línea) — Jan 2022 - Jan 2023 · Apr 2024 - Nov 2024

Caribbean Cinemas · Santo Domingo

- Customer service and conflict resolution; restocking sales materials and teamwork.

_ PROJECTS

Kortex — Multi-location SaaS for barbershop chains — In development · GitHub

Next.js (App Router) and strict TypeScript; PostgreSQL on Supabase with Drizzle ORM and 26 tables. Multi-tenant Row Level Security, role-based authentication and authorization guards with audit logging. Tested with Vitest and Playwright, monitored with Sentry, deployed to Cloudflare Workers.

`Next.js` `TypeScript` `PostgreSQL` `Drizzle` `Playwright`

Agendalo — Online booking SaaS for service businesses — In development · GitHub

Per-business booking page with conflict-free scheduling and an admin dashboard. PayPal payments and subscriptions (webhooks), email via Resend and PDF/CSV reports.

`Next.js 16` `React 19` `Supabase` `PayPal` `Vitest`

WTech Store — E-commerce store — Personal project · GitHub

React and Vite frontend, Express REST API, Supabase for data and auth, PayPal checkout (sandbox), containerized with Docker.

`React` `Express` `Supabase` `Docker`

Jarvis — AI voice assistant — Personal project · GitHub

Uses the Claude API with structured JSON output and ElevenLabs for speech; drafts emails and calendar events for the user to confirm.

`Next.js` `Claude API` `ElevenLabs`

Calculadora de Tarifas — Desktop quoting app — Personal project · GitHub

Quotes software projects with a live cost breakdown, DOP/USD conversion and client history, and generates the quote as a PDF.

`Tauri` `Rust` `React` `TypeScript`

Conciliación de Pagos — Invoice-to-payment reconciliation with pandas `Personal project · GitHub`

Cleans messy invoice references, converts currencies with the rate in force on each date (merge_asof), matches payments to invoices without guessing ambiguous cases, and writes CSV and Parquet recovery reports. 33 pytest tests.

`Python` `pandas` `pytest`

_ SKILLS

Frontend
TypeScript, JavaScript, React, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui, Vite

Backend & data
Node.js, Express, REST APIs, PostgreSQL, SQL, Supabase, Drizzle ORM, Zod

Quality & delivery
Git/GitHub, Docker, Vitest, Playwright, Sentry, Cloudflare, Vercel, Fly.io

AI
Claude Code (primary), Cursor, Antigravity; Claude API, ElevenLabs

Other languages
Python (intermediate), Java (basic-intermediate), C# (basic), Rust (Tauri)

Support & security
Windows, Microsoft Office, Figma; Kali Linux, Nmap, TryHackMe, Hack The Box

_ EDUCATION & COURSES

Bachelor's in Informatics (Licenciatura en Informática) `2019 - Present · expected graduation 2028/2029`
Universidad Autónoma de Santo Domingo (UASD)

Electrical Technician (Técnico en Electricidad) `2015 - 2019`
Instituto Politécnico Cardenal Sancha

Introduction to Information Security `2025 · 2 months`
Instituto Tecnológico de las Américas (ITLA)

Introduction to Pentesting
ExorcicesThat · online course

_ LANGUAGES

Spanish (native) · English (B1, intermediate)
